## EXPERIENCE

### HUSHH.AI | SENIOR MOBILE DEVELOPER

Jan 2024 – Present | Remote | Kirkland, WA

- Spearheaded the development of Hushh Wallet, Hushh Agent, and Receipt Radar, laying the foundation for the company's core product suite.
- Architected the backend infrastructure and led the creation of cross-platform mobile applications.

### YOUTUBE CONTENT CREATOR | FLUTTER DEVELOPER

Jul 2022 – Present

- Produced and published over 45 tutorial videos on Flutter, covering topics such as live coding and package usage.
- Grew a community of 2.2K+ subscribers, with content helping over 200K developers in their Flutter development journey.

### DALVKOT PVT LTD | TEAM LEAD & FLUTTER DEVELOPER

Nov 2022 – Aug 2023 | Bangalore, Karnataka | Contract

- Enhanced user experience by over 70% through the development of intuitive, user-friendly applications.
- Led the development of four healthcare applications tailored for employees, doctors, and patients.

### GENIOPAY PVT LTD | FLUTTER DEVELOPER

Jul 2022 – Oct 2022 | London | Contract

- Developed a fintech application, focusing on seamless payment gateway integration with Razorpay and Stripe.
- Managed real-time currency exchange data for over 70 global currencies within the app.

### NOWAPPS TECHNOLOGIES PVT LTD | FLUTTER DEVELOPER

Nov 2021 – Jul 2022 | Bangalore, Karnataka

- Collaborated with prominent brands such as Asian Paints, IFB, Tata, and Aashirvad to develop cross-platform applications.
- Oversaw the development of a supply chain management app, incorporating end-to-end tracking from manufacturing to delivery.
- Implemented an offline purchasing feature, expanding the app's functionality and user accessibility.

## RESEARCH

### VYDEHI INSTITUTE OF MEDICAL SCIENCES AND RESEARCH CENTRE | LEAD TECH LAB INTEGRATION

Nov 2022 – Present | Bangalore, Karnataka

- Collaborated with **Alok Singh** to develop a seamless integration between laboratory machines and our unified solution system.
- Engineered a system to decode high-level machine binary messages, enabling real-time data storage and analysis from lab equipment.
